

v8::internal::TriggerFailure
Extension::GetNativeFunctionTemplate

```
graph LR; A["v8::internal::TriggerFailure  
Extension::GetNativeFunctionTemplate"] --> B["v8::internal::TriggerFailure  
Extension::TriggerAssertFalse"]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a black border and contains the text 'v8::internal::TriggerFailure' on the first line and 'Extension::GetNativeFunctionTemplate' on the second line. A blue arrow points from the right side of this box to the left side of the right box. The right box is gray with a black border and contains the text 'v8::internal::TriggerFailure' on the first line and 'Extension::TriggerAssertFalse' on the second line.
